

List of Courses after 10th

SR. NO	COURSE NAME	DESCRIPTION
1	Art Teacher Diploma	It is typically a 2-year program to train candidates in the fundamental principles of visual and design experience Arts Teacher
2	Commercial Art Diploma	Commercial art, often called advertising art, helps understand nuance of selling goods and services. It is completely different from fine art. Job Scope: Art studios, Advertising companies, Publishing houses, Fashion houses
3	Diploma in Beauty culture & Hair dressing	Beauty Care courses, ranging from 3 months to a year, impart training in body care. Job profile generally begins with trainee in beauty salons. Job Scope: Self Beauty salon & Beauty Expert
4	Diploma in Garment technology	Garment Technology is a 3-year diploma course which equips candidates with techniques of timely delivery of merchandise & optimal resource utilization. Job Scope: Self Boutique & Fashion designer
5	Diploma in Stenography	It is a one-year diploma in administrative vocational trade where candidates are equipped in taking short-hand dictations and perform clerical duties. Job Scope: Secretary, Stenographer, Computer Operator, Clerk-cum-Typist in Private and Govt. sector
6	Engineering Diploma	It is a technical degree below the undergraduate rank which aims to enable students to understand technical communication and apply basic problem solving techniques. Job Scope: Govt. Contractor
7	Industrial Training Institutes	Industrial Training Institutes (ITIs) are government-run training organizations which offer post-school technical training ranging from 6 months to 2 years in varied fields. Job Scope: Apprentice, welder & Govt. jobs
8	Laboratory Technician Diploma	This course is meant for training in Clinical Laboratory technology where students are equipped with technical know-how for placement in clinical labs & hospitals. Though duration varies, it is mostly a 3-year course. Job Scope: Lab Technician, Lab Assistant, Self-employment.
9	Enrolled Follower	Indian Coast guard offers opportunities to individuals for employment as enrolled follower with the job profile of

		cleaning Coast Guard buildings, offices and ships etc.
10	LIC Agents	LIC agents are professionals who work at ground level for the Life Insurance Corporation of India. They are actually intermediaries who create ties between LIC clients and LIC.
11	Police Constable	Police department of different states offer jobs for Constable and recruits candidates on basis of their performance in preliminary exam, main exam, physical test & medical test.
12	Sailor	Indian Navy recruits sailors for their maritime operations. The selection process includes hour-long objective test, physical fitness test & medical test. Selected candidates are put on probation for 2 years.
13	Diploma in mechanical engineering	Duration: 3 year It is a technical degree that only covers the essentials when ranked with an undergraduate engineering degree. It aims to provide students with industry or job related engineering knowledge, scientific skills, computing & analysis, mathematical techniques, a sound knowledge of English to communicate in the field and ability to apply problem solving techniques.
14	Diploma in civil engineering	Duration: 3 year Civil Engineering deals with the design, construction and maintenance of the physical and naturally built environment, including works like roads, bridges, canals, dams and buildings.
15	Diploma in electrical engineering	Duration: 3 year Diploma in Electrical Engineering course trains students in areas such as- Electrical Machines, Power transmission, Power Systems, Electronics, Circuit Network, Motors, Generators, Electrical Appliances, Microprocessors, Electromagnetism, Signal processors, Sensors etc.
16	Diploma in computer engineering	Duration: 3 year Diploma in Computer Engineering course trains students in areas such as- Software development and testing, hardware, networking, embedded systems, VLSI systems, computer architecture, integrated systems and computation.
17	Diploma in aeronautical engineering	Duration: 3 year Diploma in Aeronautical Engineering course trains students in areas such as- structural design, manufacturing, maintenance, aerodynamics, navigation systems, and control systems etc of air flight capable machines such as aircraft, space shuttles, missiles, rockets and satellites.
18	Diploma in chemical engineering	Duration: 3 year

		Diploma in Chemical Engineering course trains students in areas such as- Chemical reaction, production, storage, transportation of chemicals, raw materials, biochemistry, plant design, safety management etc
19	Diploma in software engineering	Duration: 3 year Computer software engineering classes offered in A.S. programs provide the technical knowledge necessary to design and implement computer programs used to create websites, manage data and complete other functions.
20	Diploma in petroleum engineering	Duration: 3 year Diploma level Petroleum Engineering course. ... Program focuses on production, drilling, reservoir, petroleum chemistry, technical communications, petroleum engineering science, petroleum safety fundamentals, and geology
21	Diploma in mechatronics	Duration: 3 year Diploma in Mechatronics Engineering course trains students in areas such as- Mechanical systems, electrical and electronics systems, control systems, instrumentation, circuits, computer science and programming.
22	Diploma in textile technology	Duration: 3 year Diploma in Textile Engineering course trains students in topics such as- textile processes, raw materials, textile equipment, chemistry, CAD, textile production, merchandising and marketing.
23	Diploma in automobile engineering	Duration: 3 year A diploma holder of automobile engineering has rewarding job prospects in the various manufacturing plants of cars, bikes and other automobiles.
24	Diploma in biomedical engineering	Duration: 3 year Diploma in Biomedical Engineering course trains students in areas such as- Chemistry, Medical Sensors, Medical Imaging Equipment, Application of Electrical and Electronics Engineering in Medical Technology and Instrumentation.
25	Diploma in electrical & electronics engineering	Duration: 3 year Diploma in Electrical Engineering course trains students in areas such as- Electrical Machines, Power transmission, Power Systems, Electronics, Circuit Network, Motors, Generators, Electrical Appliances, Microprocessors, Electromagnetism, Signal processors, Sensors etc.

26	Diploma in environmental engineering	Duration: 3 year Environmental Engineering is the main branch of engineering that concerned with the human population's protection, environment protection & improve the environmental quality.
27	Diploma in fashion technology	Duration: 3 year Fashion design is not just about designing clothes! There are different disciplines and fields present within the fashion industry. Apparel Design, Leather Design, Fashion Communication, Textiles, Manufacturing, Sales, Retail Merchandising, Fashion Photography, Fashion Event Management etc. are some of the well-known parts of fashion industry. Many fashion industry courses are available in India, which focuses on the above mentioned disciplines.
28	Diploma in fire engineering	Duration: 6 year Fire and Safety courses focus on the science of fire and firefighting. The training module covers topics such as fire, fire prevention, hydraulics, first-aid, firefighting equipment, communication systems, fire safety engineering, chemistry and physics.
29	Diploma in fire safety engineering	Duration: 6 month
30	Diploma in architecture engineering	Duration: 3 year Architectural Assistantship professionals not only deal with design and construction of houses and buildings, they are also capable of dealing with the design, construction and maintenance of other physical structures, outdoor environment and built environment in general.
31	Diploma in ceramic Technology	Duration: 3 year Diploma in Ceramic Engineering course trains students in areas such as- Basic chemistry, material science, chemical reactions, ceramic properties, waste and toxic material management, and metallurgy and process control.
32	Diploma in computer science & technology	Duration: 3 year Computer science is the study of the theory, experimentation, and engineering that form the basis for the design and use of computers. It is the scientific and practical approach to computation and its applications and the systematic study of the feasibility, structure, expression, and mechanization of the methodical procedures (or algorithms) that underlie the acquisition, representation, processing, storage, communication of, and access to information.
33	Diploma in computer science & engineering	Duration: 3 year In Computer Science & Engineering the student will go

		through the algorithms, programming languages, operating systems, database management systems, computer network, computer graphics and artificial intelligence.
34	Diploma in rubber technology	Duration: 3 year Diploma in Rubber Technology course trains students in areas such as- Basic chemistry, polymer science, chemical properties of rubber, process control, chemical reactions, mould design and basics of chemical engineering.
35	Diploma in metallurgical engineering	Duration: 3 year The course is a mixture of classroom lectures and practical sessions. The course covers topics like physical and chemical properties of metals, chemistry, material science, alloys, compounds and applications of metals in manufacturing processes.
36	Diploma in plastic technology	Duration: 3 year Diploma in Plastic Engineering course trains students in areas such as- Basic chemistry, Polymer Chemistry, Mould Design, Industrial Training, Plastic Materials and Quality Management
37	Diploma in dental mechanics	Duration: 3 year dental Assistants work under the supervision and guidance of qualified Dentists. They are paramedical professionals who directly assist Dentists. Dental Assistants assist Dentists in performing tasks like examination, treatment and surgery.
38	Diploma in business administration	Duration: 1 year Diploma in Business Administration helps learners build their path in the field of business and administration and make successful career in future. The programme provide the skills and productivity tools needed to be a key part of the success in today`s highly specialized offices.
39	Diploma in commercial practice	Duration: 3 year Diploma in Commercial Practice is a three-year course that offers knowledge to the students in different areas like stenography, accounting, typewriting, data entry, etc. After completing the course they have many options.
40	Diploma in hotel management and catering technology	Duration: 2 year a hotel has many departments such as Operations, Front Office, Food and Beverages, Accounting, Sales and Marketing, Engineering/ Maintenance, Security etc. one can opt for a field of their liking and pursue a career and successfully grow in it.
41	Diploma in agriculture	Duration: 2 year Students who wish to do Diploma in Agriculture , they will learn many facets of the career including natural resource, soil

		conditions, agribusiness management, livestock production and agricultural management, the workings of agricultural machinery like harvesters, cropping machinery and other machinery used in the agricultural world.
42	Diploma in cyber security	<p>Duration: 1 year</p> <p>cyber security courses are prevalent through degree programs in information technology, Through these different programs, students learn how to identify security issues and protect information as well as track down those who steal that data. Because cyber security is necessary for homeland security and so many other fields, there are several types of programs available that vary in scope and focus.</p>
43	Diploma in cosmetology	<p>Duration: 5 month</p> <p>It is a part of medical science (medical courses) that focuses on physical appearance of a person & makes people look good. It consists of various branches that include beauty therapy and treatments for face, body, hair and overall health care. A cosmetologist is an expert in makeup, skin care and beauty products. Cosmetologists provide beauty services that include cosmetic care for hair, skin, nails and body.</p>
44	Diploma in beauty culture	Duration: 4 months
45	Diploma in 3d animation	<p>Duration: 18 month</p> <p>Professional Ethics , Skin Anatomy and Physiology, diploma beauty culture, Skin Disorders, Decontamination and Infection Control, Different Massage Manipulation, Nail Structure, Nail Disorder, Manicure & Pedicure, Superfluous Temporary Hair Removal Techniques, Facial Bleaches, Skin Analysis ,Client Consultation, Basic Facials, Facial Electrotherapy Treatments ,Aromatherapy, Advance Massage Techniques, Advance Manicure & Pedicure, Advance Facial Treatments, Nail Art and Temporary Nail Extension, Advance Superfluous Hair Removal technique, Salon Management & Business Ethics , Cosmetic Science.</p>
46	Diploma in hospitality management	<p>Duration: 3 years</p> <p>The hospitality sector is vast. It offers wide variety of job roles and opportunities to qualified professionals. Some of the prominent areas of hospitality sector are –</p> <p>HR management</p> <p>Food production</p> <p>Supervision and quality assurance</p> <p>Housekeeping operations</p> <p>Front office operations</p>

		<p>Facilities and amenities management Customer service operations Sales and marketing Accounting Business management Diploma in Hospitality course trains students in the above mentioned subjects/areas.</p>
47	Diploma in Urdu	<p>Duration: 1 year (minimum). 3 years (maximum)</p> <p>10th passed with Urdu subject or its equivalent OR Urdu language certificate course from IGNOU Diploma in Urdu is a language course. The course covers topics like history of Urdu language, Urdu poetry and prose, writing in Urdu, translation etc.</p>
48	Diploma in visual communication	<p>Duration: 1 year to 2 years</p> <p>In simple terms, visual communication is the transmission/dissemination of information, news, messages or ideas using symbols and imagery. Basically, it is communication through a visual aid!</p> <p>Drawing & illustration, photography, videography, graphic design, animation, film production & editing, web designing, advertising and photojournalism are important parts of visual communication studies. The subjects form an integral part of viscom syllabus.</p>
49	Journalism after 10th	<p>Duration: 3 years</p> <p>Journalism is the work and distribution of reports on interaction of events, facts, ideas, and people that are “news of the day” and that informs society to at least some extent.</p> <p>Journalism deals with gathering information, organizing it and spreading the collected information so that it reaches the masses. For spreading information, journalistic media are used. Radio, TV, print media, internet etc. are examples of journalistic media.</p>
50	Interior designing	<p>Duration: 3 years</p> <p>An interior designer is a professional who is knowledgeable about topics like planning, functional design, interior decoration and optimal use of space.</p> <p>Space utilization, space manipulation, decoration and surface treatment techniques are used to boost the appearance of interiors and exteriors of buildings. Not only does interior design focus on aesthetics, but it also gives importance to</p>

		functionality, safety as well as legal aspects (like building codes and regulations).
51	Diploma in printing technology	<p>Duration: 3 years</p> <p>Printing is a process for reproducing text and images using a master form or template. Printing technology is an engineering discipline that deals with the study, design and manufacturing of machines and materials used for printing. Apart from that, this discipline also deals with the development and study of printing processes.</p>
52	Diploma in power electronics	<p>Duration: 3 years</p> <p>Power electronics is the application of solid-state electronics to the control and conversion of electric power. This branch of engineering deals with the study, design, control, computation and integration of energy processing electronic systems.</p>
53	Diploma in Nursing Care Assistant Course in India	<p>Duration: 1 to 2 year</p> <p>Nursing care assistants are also known as nurse aides. They work alongside or under the supervision of qualified nurses (RNs) and Doctors.</p> <p>In short, they work in tandem with Doctors and RNs. They usually are parts of the nursing teams serving at hospitals, clinics and nursing homes.</p>
54	Diploma in mining engineering	<p>Duration: 3 years</p> <p>A mining engineer is a trained professional who is capable of taking care of mining operations- at both surface and underground levels. A mining engineering is involved in stages like mineral exploration, estimation of the size of the mineral deposit, assessing viability, mine structure planning, project planning, mineral excavation, mineral processing, mineral production and man management.</p>
55	Technical diploma courses	<p>Duration: 3 years</p> <p>10th passed students, who are interested in pursuing applied science subjects or technical subjects may pursue such programs. Usually, these courses are job oriented. Most of them are tailor made to train a student take on a role in a specific industry.</p>
56	Diploma in Physiotherapy	<p>Duration: 2 years</p> <p>Physical Therapist or Physiotherapist is a trained professional who is capable of undertaking the above mentioned activities in</p>

		supervised or independent setup. Physiotherapists play a crucial role in the healthcare sector. They are very useful in rehabilitation of patients suffering from deformities, recovering from surgeries or injury. They are also helpful in aiding the rehabilitation of old aged people, who tend to suffer from musculoskeletal problems.
57	Diploma in marine engineering	Duration: 3 years A marine engineer is responsible for designing, planning, manufacturing, maintaining and repairing various machinery and parts of a ship, like the ones I've mentioned above. A ship can be compared to human body. For its efficient functioning, various parts (organs) have to function smoothly. A marine engineer is trained to develop, maintain and repair such parts of a ship!
58	Merchant Navy Courses & Careers After 10th	Duration: 3 years Jobs available in Merchant Navy sector are well rewarding (financially) and challenging at the same time! Merchant Navy offers diverse job opportunities. Deck crew jobs, engine crew jobs, maritime law and maritime management are some of the well-known job profiles available in this sector.
59	Diploma in IC (Instrumentation and Control) Engineering	Duration: 3 years Instrumentation is all about measuring and controlling process variables that come into play during manufacture/production processes. In case of most manufacturing plants, variables like force, temperature, pressure etc. play a crucial role. Such variables have to be controlled and measured, so that desired/optimum performance can be obtained. Control Engineering focuses on design, development and maintenance of control systems. This discipline focuses on using control theory to design systems that behaves and functions in a planned way.
60	Diploma in jewelry design	Duration: 3 years This course is designed to bring multifaceted personalities to Jewelry Industry. It is noticed that people face so many problems & troubles in their business due to insufficient knowledge. And some time people can't grow up due to the same reason. This course is designed to solve all the problem of these kinds. An aspirant will learn Diamond identification, formation & mining...
61	Advance diploma in film making in animation	Duration: 2 years Module I Getting started with Animation History Understanding of Animation Film production process -

		Fundamental of Drawing: • Basics of Drawing • Drawing Principles • Object drawing, Light & Shade • Perspective Drawing • Human, Animal & Birds Construction & Anatomy • Colour Techniques.
62	Diploma in digital film making	Duration: 1 year X School's Digital Filmmaking course helps you master filmmaking skills in a professional environment using the latest DSLR filmmaking technology. Our project-oriented curriculum allows you to specialize in your specific area of interest and work on industry projects as part of your training. Our students attain a high degree of placement in the industry.
63	Diploma course in photography	Duration: 1 year 12-month Diploma Course in photography helps you acquire the practical skills necessary to become a professional photographer. With this course, you gain in-depth knowledge of the working of DSLRs, studio lighting, outdoor photography, and advanced digital imaging techniques.
64	Diploma in Professional In-Flight & Ground Staff Services (DPIGS) - (MGU)	Duration: 1 year On completion of this course, students may join the aviation industry in diverse areas like airport management, safety and service, fixed base operations, airport transportation, catering, service and maintenance, baggage handling, transport scheduling, security etc.
65	Diploma in cabin crew & air hostess management	Duration: 1 year Curriculum Extra Certification: IATA, Computer Reservation System-CRS, First Aid, French (DELFI-A1), English (IELTS), College Competitions & National Competitions Year 1 (SEMESTER - I) Aviation Industry : Introduction to Hospitality Airport Operations Aircraft Technical : Flight Catering PD Travel & Tourism : Geography of Tourism English : Communication Management
66	Diploma in game designing	Duration: 3 year Game Design Game Designing is what one can call a new age career. The entertainment business may be centuries old, but the gaming industry has been making it's significance felt only for a little less than three decades. And when we talk about India alone, the figure drops down to only a decade or so! India has a huge potential for developing games for domestic and international markets.
